

Dear Big Cat

Rescue, The cats look a lot different in real life than on the website. There are a lot of cats at Big Cat Rescue. I never expected there were so many types of cats in the wild. I learned a lot more in the real place than the website. It's very interesting how cats live in the wild and at Big Cat Rescue. Before I went to Big Cat Rescue, I thought that Pharoah was the coolest, now I don't know which cat is my favorite. Truly William L.
